+63-976-152-5350 | vincekdulay@gmail.com | [in](#) Vince Karlo Dulay

Baguio City, Benguet - 2600, Philippines

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React (intro-level projects), Bootstrap, Figma
- **WordPress:** Theme customization, plugin development, Elementor, SEO basics
- **Backend:** PHP, Node.js (basic), REST API integration, Token Auth (JWT), CRUD apps
- **Databases:** MySQL, SQLite, PostgreSQL (basic)
- **Tools:** Git, Visual Studio Code, PyCharm, Trello, Adobe Photoshop, Zapier (exploring)

WORK EXPERIENCES

- **NOAH Business Applications | Quality Assurance Tester Intern** Makati City, Philippines
Jan 2024 - May 2024
Software Testing, Scenario Testing, Black Box Testing, Google Sheets.
 - Conducted comprehensive **scenario-based and black box testing** on multiple web applications, ensuring functional accuracy and usability across varied user flows.
 - Identified and documented **30+** UI/UX bugs using Google Sheets, directly contributing to **30% faster resolution cycles**.
 - Conducted **manual testing** on production systems and front-end workflows.
 - Provided feedback on **UI responsiveness and layout structure**—familiarized with **WordPress-based** admin portals.
- **RE Virtual Assistant Services, Inc. | Virtual Real Estate Assistant** Baguio City, Philippines
Oct 2024 - Feb 2025
VaultRE, PriceFinder, PropertyME, PropertyTree, Google Sheets
 - Supported **CRM site integration tasks** and created **automated scripts** for process workflows.
 - Helped maintain **WordPress-based** property listing pages using **Elementor and custom shortcodes**.

PROJECTS

- **Recomed (Front-end Developer) | HMTL5, CSS3, JavaScript, PHP, SQL** Jan 2023 - Dec 2023
 - Developed landing page and internal dashboard using **PHP, CSS3, JavaScript, and SQL**.
 - Built **REST-style endpoints** for record display and admin actions.
 - Focused on component-based **layout structure** and **cross-browser styling**.
- **Udemy Full-Stack Web Development Bootcamp | JavaScript, Node, React.js, PostgreSQL** Mar 2025 - May 2025
 - Built and deployed responsive websites using **HTML, CSS, JavaScript, Bootstrap**, and modern front-end frameworks like **React**.
 - Completed **hands-on projects** including a blog platform, to-do list app, and a full-stack newsletter subscription site hosted on Heroku.
- **Harvard's CS50P | Python, Git, GitHub** Aug 2024 - Sept 2024
 - Earned a **certification** and completed a rigorous, project-based course covering **foundational Python programming**, including functions, data structures, OOP, file I/O, and exception handling.
 - Developed a custom upgrade monitoring tool by **integrating a game API** to track in-game progress, calculating upgrade timelines and associated resource costs.
 - Created and implemented **Python test scripts** for different activities and projects.

EDUCATION

- **Saint Louis University** Aug 2019 - July 2024
Bachelor of Science in Information Technology Baguio City, Philippines
 - Dean's Lister (1st Year, 2nd Year 1st Sem, 3rd Year 1st Sem, 4th Year 1st Sem)
